

1 July 1982

MEMORANDUM FOR: Director of Central Intelligence

FROM : SA/DCI/IA

SUBJECT : Testimony on International Narcotics,  
14 July 1982

1. The attached material has been prepared in anticipation of your 14 July testimony before the SSCI on international illicit drug trafficking. Tab A contains Senator Goldwater's letter to you requesting that you address trends and developments in international illicit drug trafficking and what the CIA and the Community are doing currently and plan to do in the future to combat the problem.

2. Senator Goldwater has asked a couple of specific questions, the first of which will require some thought and coordination with the other witnesses. Specifically, the Senator would like to discuss whether there should be a unified, government-wide strategy for the optimal collection, dissemination, and analysis of intelligence in support of U.S. diplomatic and law enforcement efforts. General Faurer and Judge Webster have been invited to testify as well.

3. This package includes material provided for you by the IC Staff which outlines briefly what the various NFIP agencies are doing as well as how they cooperate with non-NFIP agencies involved in the international narcotics problem. Second, DDO has provided an input on their collection efforts, and the DDI has provided an input on our current and future analytic efforts.

4. You should be aware that Admiral Inman testified before the House Foreign Affairs Committee in late April on this subject. I have included for your review, therefore, a copy of the short statement that he submitted for the record as well as the longer set of talking points which he used in his actual presentation. Although Senator Goldwater's questions go beyond the issues covered by Admiral Inman, his presentation lays out the essence of what we are doing and planning to do regarding collection and analysis. You will see from the draft outline that I have proposed my suggestion is to build upon the Admiral's April testimony.

5. Because of the fact that I have just now received the updated inputs for the testimony, I have not had an opportunity to attempt to pull it together into a coherent statement for you. I will do that, however, tomorrow and have it for you when you return on Tuesday.
